tlakali dont touch the zombies. don't touch the zombies. don't touch the zombies game

This video game allows you to fight zombies in a different way, and you basically play two roles at the same time: the zombie and the hunter. Including items which strenghten your character, you can spend hours playing this game and trying to beat your last score in any of the different modes. If you like zombies, this game must be in your steam library.. A very fun game, an innovative way to be zombie and fight against them, simple and agile controls, variety of game modes, in particular I stay with the horde mode is my favorite and it is always a challenge to reach a multi-kill, variety of items for both hunter and zombie, which force your search unbridled for take the lead or "survive". Very good graphics that generate fun environments to visualize and enjoy in a game, "*An overnight rain in a pantheon should never be missed in a game of zombies*". *Good soundtrack. In game modes, if you enter zombie mode you can take advantage of interesting items that sometimes make you prefer to be Zombie.*

*I would like to add more maps, I would like to add items to my hunter (a knife for example), it would be nice to be able to customize my characters.*

*Overall I really liked the game, I highly recommend it, the multi player mode can become very competitive, and of course fun a lot.*
